

# 2017 Annual Report to the School Community

School Name: Moonee Ponds Primary School

School Number: 3987

- All teachers at the school meet the registration requirements of the Victorian Institute of Teaching ([www.vit.vic.edu.au](http://www.vit.vic.edu.au)).
- The school meets prescribed minimum standards for registration as regulated by the Victorian Regulation and Qualifications Authority (VRQA) in accordance with the Education and Training Reform (ETR) Act 2006. This includes schools granted an exemption by the VRQA until 31 December 2017 from the minimum standards for student enrolment numbers and/or curriculum framework for school language program.
- The school is compliant with the Child Safe Standards prescribed in Ministerial Order No. 870 – Child Safe Standards, Managing Risk of Child Abuse in School.

Attested on 29 March 2018 at 12:57 PM by Matthew Bott (Principal)

- All teachers employed or engaged by the school council meet the registration requirements of the Victorian Institute of Teaching.
- To the extent that the school council is responsible, the school meets prescribed minimum standards for registration as regulated by the Victorian Regulation and Qualifications Authority (VRQA) in accordance with the Education and Training Reform (ETR) Act 2006. This includes schools granted an exemption by the VRQA until 31 December 2017 from the minimum standards for student enrolment numbers and/or curriculum framework for school language program.
- To the extent that the school council is responsible, the school is compliant with the Child Safe Standards prescribed in Ministerial Order No. 870 – Child Safe Standards, Managing Risk of Child Abuse in School.

Attested on 29 April 2018 at 05:11 PM by Scott Cutler (School Council President)

Moonee Ponds Primary School  
respect • optimism • care • collaboration

## About Our School

### School Context

2017 marks the fifth year of Moonee Ponds Primary School. Formally Moonee Ponds Central School, the school at the end of 2012 was reorganised from a Prep - Year 8 structure to a Prep - Year 6 Primary school. As part of this change the school created a new Mission, Vision and Values; this guides and supports our work in providing the best quality education for our students. Our mission is to create and sustain a world class inclusive and collaborative learning community that provides the highest quality education; where teacher and student potential is maximised and where all students are empowered to become active, inspired and courageous citizens. Our vision and values can be viewed at <http://www.mpp.vic.edu.au/about-us/>

The school is situated on spacious and well-treed grounds that are well appointed with equipment, play and recreation areas. The school is located in the inner north west of Melbourne and draws students from its local area of Moonee Ponds, Ascot Vale and Brunswick North and West. In 2017 our enrolment was 355 students, encompassing 16 classes. Organisationally the school is structured in professional learning teams (PLTs): Prep/Foundation, Year 1/2, Year 3/4 and Year 5/6. Our workforce comprised of two Principal class officers, twenty teachers and nine Education Support Staff (office & integration aides) with a total of 26.45 EFT (Effect Fulltime Staff). There were 12% of EAL (English as an Additional Language) students and 3% ATSI (Aboriginal and Torres Strait Islander) students in the school. Our overall socio economic profile (based on SFOE) is "high" with a current SFOE index of 0.1862. Our SFO Index is 0.2664.

Moonee Ponds Primary School is a place where all students feel safe, are respected and are challenged in their learning. Our teachers work in highly effective teams, planning for the success and learning of every child in the school. Together they have created a vibrant reading, thinking and problem solving culture in every classroom. The timetable is designed to support each team with at least one period of planning time together during the school day. The meeting schedule is structured with PLT meeting time after school one day a week. All meetings are structured to have a Strategic Plan/Annual Implementation Plan (AIP) focus and organisational focus; with a professional learning emphasis on curriculum, instruction, assessment and feedback.

As well as the classroom teaching teams, students have access to specialist classrooms and teachers for Visual Art, Performing Art, Physical Education and Italian. This breadth of curriculum is also supported with both Science and extensive Integrated Studies units of work. Our philosophy is based around each student performing at their personal best in all areas of the curriculum including sport. We celebrate participation and reward excellence in all endeavours. We commit to maximising the learning growth of every child.

### Framework for Improving Student Outcomes (FISO)

The FISO area that MPPS focused on in 2017 was Excellence in Teaching and Learning. In the area of Building Practice Excellence, the Key Improvement Strategy (KIS) was 'Build the instructional practice of every teacher so that there is consistency and high quality across the school'. The KIS in the area of Curriculum Planning and Assessment was 'Build the Guaranteed and Viable Curriculum', 'Ensure a whole school process for setting challenging goals and effective feedback for every student and teacher' and to 'Build the professional learning teams (PLT's) across the school'.

These areas were the main focus of our Annual Implementation Plan (AIP). We have also created a Teaching and Learning Framework on our school's website which articulates our school expectations, teaching and learning approaches, policies and procedures. This ensures consistency and alignment of high quality teaching and learning practices across the school as well as collective efficacy within our collaborative learning community.

### Achievement

Moonee Ponds Primary School's (MPPS) Victorian Curriculum data in English and Mathematics has been consistent (similar) with the median of all Victorian government schools. In 2017 our student outcomes were also consistent with that of similar schools. In Year 3, NAPLAN reading was higher and numeracy similar when compared to that of similar schools. In Year 5 both reading and numeracy were lower, with the four year average similar to that of similar schools. Our NAPLAN growth data showed a decreased number of students with high growth and an increased number of students with low growth in reading and numeracy. It also indicated strong learning gains in writing.

MPPS continues to focus on ensuring all students experience success in their learning and achieve greater than expected growth. Improved student growth outcomes are achieved through ensuring alignment of school practices, and continuing to work collaboratively as a staff to analyse data and use this to plan effective teaching practices. Our highly qualified staff promote high expectations of student achievement, through increased levels of support, enhanced personalised learning, student responsibility for learning and student voice.

We continue to embed and grow best practice teaching and learning strategies in Literacy and Numeracy. We are committed to a rich, robust and rigorous curriculum that includes Performing and Visual Arts, Physical Education, LOTE, Science and the Technologies. Our teachers work in teams to plan, deliver, assess and review for every child's growth. Continued professional learning through our Professional Learning Community (PLC) work, the learning around our teaching instructional model (GANAG) and participation in Bastow courses supports the whole school approach to improvement.

## Engagement

Attendance at MPPS in 2017 was at 94% (except Year 1- 93%) and higher (less absences) in schools' comparison. Our 4-year average is also higher than comparison schools (meaning lower absence rates). Long-term absences due to family holidays and trips overseas during the term remain a concern for some families in our school. Our focus on improving this is to continue to promote the importance of attendance as a significant factor in student learning and engagement.

To engage students at school, we implement a targeted approach to teaching and learning. Teachers track student growth against the curriculum, plan for and deliver lessons based on the cohort and individual student needs. This results in differentiated and targeted curriculum delivery. Additional programs are implemented to support student engagement; these include social and life skills groups, chess club and the instrumental music program. We build leadership capacity in students through an active Student Representative Council, Green Team (student environmental group), sport and music leaders and the Better Buddies Program. Technologies are integrated across the curriculum with increased access to laptops, desktops and interactive whiteboards to support student learning. There is also the eConnect (1:1 netbook) program in Years 4-6.

Age specific transition programs for students and their parents are provided annually. We continue to support students entering their next year of schooling through four 'move up' transition sessions during term four. All student transitions are supported by teachers and the use of student learning data and individual learning improvement plans for students 12 months above and below the expected level of achievement. For parents, information is utilised through parent transition sessions, information evenings for all year levels and through regular updates on class blogs and in the school newsletter.

## Wellbeing

In 2017 a new Attitudes to School survey was implemented for Year 4, 5 & 6 students. Students were asked questions in relation to a range of factors. This included questions about students' safety, social engagement, learner characteristics & disposition, student/ teacher relationships and effective teaching practice for cognitive engagement. Our student data is consistent with similar schools in terms of the Sense of Connectedness factor and the Management of Bullying factor.

We continue to actively promote student wellbeing to develop students' deep connections to one another, to school and to learning. The annual MPPS Establishment Program revisits and deepens a positive school culture. Teachers facilitate this important program to build a positive environment within the class and across the school; expectations are established, goals are set and resilience strategies reinforced. In 2017 a focus of the school was building student capacity to reflect on, regulate and manage their emotions, build their self-awareness and ability to problem solve as well as develop positive and constructive relationships. Programs implemented to support this included the Rights, Resilience and Respectful Relationships program, Mindfulness Curriculum and the Martial Arts Therapy (MAT) program.

In 2017 the school achieved the 'sustaining' eSmart (Cyber Safety) accreditation. This process is aimed at developing student capacity to be smart, safe and responsible users of technology. Whole school events and cross-age activities are explicitly planned to build MPPS as a collaborative learning community. There is a shared commitment to ensure a safe, caring and nurturing environment. All children adhere to the MMPS values which are emphasised with all students across the school. Children, teachers and parents work cooperatively and supportively as a school community.

For more detailed information regarding our school please visit our website at  
[www.mpp.vic.edu.au](http://www.mpp.vic.edu.au)

## Performance Summary

The Government School Performance Summary provides an overview of how this school is contributing to the objectives of the Education State and how it compares to other Victorian Government schools.

All schools work in partnership with their school community to improve outcomes for children and young people. Sharing this information with parents and the wider school community helps to support community engagement in student learning, a key priority of the Framework for Improving Student Outcomes.

Members of the community can contact the school for an accessible version of these data tables if required.

# How to read the Annual Report

## What does the *About Our School* section refer to?

The About Our School page provides a brief background on the school, an outline of the school's performance over the year and plans for the future.

The 'School Context' describes the school's vision, values and purpose. Details include the school's geographic location, size and structure, social characteristics, enrolment characteristics and special programs.

The 'Framework for Improving Student Outcomes (FISO)' section includes the improvement initiatives the school has selected and the progress they have made towards achieving them.

## What does the *Performance Summary* section of this report refer to?

The Performance Summary reports on data in three key areas:

### Achievement

- student achievements in:
  - English and Mathematics for National Literacy and Numeracy tests (NAPLAN)
  - English and Mathematics for teacher judgements against the curriculum
  - all subjects for Victorian Certificate of Education (VCE) examinations (secondary schools)

### Engagement

- student attendance and engagement at school
- how many students leaving school go on to further studies or full-time work (secondary, P-12 and specialist schools)

### Wellbeing

- Attitudes to School Survey (ATOSS)
  - Sense of connectedness
  - Management of Bullying

Results are displayed for the latest year, as well as the average of the last four years (where available).

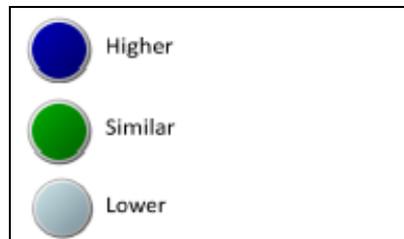

## What does *School Comparison* refer to?

The School Comparison is a way of comparing this school's performance to similar schools in Victoria.

The comparison measure takes into account the school's academic intake, the socio-economic background of students, the number of Aboriginal students, the number of non-English speaking and refugee students, the number of students with a disability and the size and location of the school.

The School Comparison shows that most schools are achieving results that are 'Similar' to other schools with alike student backgrounds and characteristics. Some schools are doing exceptionally well and have 'Higher' performance. Some schools have 'Lower' performance than expected and receive targeted support to ensure that there is improvement.

More information on School Comparison performance measures can be found at: <http://www.education.vic.gov.au/school/parents/involve/Pages/performance.aspx>

## What does '*Data not available*' mean?

Some schools have too few students enrolled to provide data. There may be no students enrolled in some year levels so school comparisons are not possible.

New schools have only the latest year of data and no comparative data from previous years.

The Department also recognises unique circumstances in Specialist, Select Entry, English Language and Community Schools where school-to-school comparisons are not appropriate.

## What is the *Victorian Curriculum*?

The Victorian Curriculum F–10 sets out what every student should learn during their first 11 years of schooling. The curriculum is the common set of knowledge and skills required by students for life-long learning, social development and active and informed citizenship.

The curriculum has been developed to ensure that school subjects and their achievement standards enable continuous learning for all students, including students with disabilities.

The 'Towards Foundation Level Victorian Curriculum' is integrated directly into the curriculum and is referred to as 'Levels A to D'.

'Levels A to D' may be used for students with a disability or students who may have additional learning needs.

'Levels A to D' are not associated with any set age or year level that links chronological age to cognitive progress (i.e. there is no age expected standard of achievement for 'Levels A to D').

## Financial Performance and Position

### Financial performance and position commentary

Overall in 2017 MPPS has continued to provide quality education programs achieving high student outcomes utilising both DET and locally raised funds. Commonwealth grants were accessed through the Sports in Schools program; this included Hockey, Volleyball and Softball. Professional Development expenditure included the Communities of Practice network focused on 'GANAG/ Classroom Instruction That Works' and improving teacher instruction across all 9 participating schools. The school community raised funds (through holding student and parent activities) for student-based projects with considerable success.

Financial Performance - Operating Statement Summary for the year ending 31 December, 2017		Financial Position as at 31 December, 2017	
<b>Revenue</b>	<b>Actual</b>	<b>Funds Available</b>	<b>Actual</b>
Student Resource Package	\$2,493,195	High Yield Investment Account	\$117,100
Government Provided DET Grants	\$352,454	Official Account	\$10,083
Government Grants Commonwealth	\$4,500	Other Accounts	\$19,666
Revenue Other	\$73,688	<b>Total Funds Available</b>	<b>\$146,850</b>
Locally Raised Funds	\$411,317		
<b>Total Operating Revenue</b>	<b>\$3,335,154</b>		
<b>Equity<sup>1</sup></b>			
Equity (Social Disadvantage)	\$8,671		
<b>Equity Total</b>	<b>\$8,671</b>		
<b>Expenditure</b>		<b>Financial Commitments</b>	
Student Resource Package <sup>2</sup>	\$2,444,797	Operating Reserve	\$21,659
Books & Publications	\$2,402	Revenue Received in Advance	\$117,743
Communication Costs	\$9,267	Other recurrent expenditure	\$7,447
Consumables	\$36,138	<b>Total Financial Commitments</b>	<b>\$146,850</b>
Miscellaneous Expense <sup>3</sup>	\$264,288		
Professional Development	\$80,521		
Property and Equipment Services	\$195,534		
Salaries & Allowances <sup>4</sup>	\$133,546		
Trading & Fundraising	\$51,228		
Utilities	\$33,299		
<b>Total Operating Expenditure</b>	<b>\$3,251,021</b>		
<b>Net Operating Surplus/-Deficit</b>	<b>\$84,133</b>		
<b>Asset Acquisitions</b>	<b>\$0</b>		

(1) The Equity funding reported above is a subset of overall revenue reported by the school

(2) Student Resource Package Expenditure figures are as of 05 March 2018 and are subject to change during the reconciliation process.

(3) Misc Expenses may include bank charges, health and personal development, administration charges, camp/excursion costs and taxation charges.

(4) Salaries and Allowances refers to school-level payroll.

All funds received from the Department, or raised by the school, have been expended, or committed to subsequent years, to support the achievement of educational outcomes and other operational needs of the school, consistent with Department policies, School Council approvals and the intent/purposes for which funding was provided or raised.
